## 12 ARE INJURED IN W. M. WRECK

**Seminary Student Among those Hurt in Wreck on the Western Maryland Saturday Evening. Rear End Collision.**

In a rear-end collision on the Western Maryland Railroad at McDonogh, Baltimore county, early Saturday night, 12 persons on the Hanover accommodation were injured, the passengers greatly frightened and shaken up and the pilot of freight engine 625 demolished. Among the injured were:

Jesse Sell, Hanover, conductor of passenger train No. 47, known as Hanover accommodation; severe bruises and sprained muscles of right leg; skin abrasions; cut over right eye one-fourth inch long and one-eighth of an inch deep

John T. Jenkins, Pottsville, a student at the Gettysburg Theological Seminary, bruises and sprain of muscles of right leg; abrasian of skin over shin.

The other ten passengers are not known here and their injuries were not serious.

It is believed that the cause of the collision was due to the air brakes on the passenger train, which refused to work as they should after passing Sudbrook Station It was said by one of the officials of the road that after passing Sudbrook Station the brakes went wrong. Owing to this the passenger train was forced to back up to each of the stations it had passed, in this way getting behind the schedule time.

The innocent and unwitting cause of the accident was John Francis Holly, and he was one of the worst injured. He was returning to his home at Mount Wilson with his wife, Mary Elizabeth Holly. The train went past Mount Wilson, however, and Holly appealed to the conductor to back. To this the conductor agreed.

Behind the Hanover accommodation was freight No. 625, which was running 10 minutes behind the passenger train. The time taken in backing to Mount Wilson took up that 10 minutes and before anyone could avert an accident the freight, which came out of the darkness, had crashed into the rear.

The smoker of the passenger train telescoped partly into the car in front of it. A number of passengers were thrown from their seats, escaping with a few bruises, but James Francis Holly, who was in the car ahead, was not so fortunate. He was jammed between two seats and badly cut and bruised.

For a moment there was great excitement throughout the train. Although he was cut about the head and eye and his ankle wrenched, Conductor Sell called out that there was no danger and his assistants hurried through the cars assuring everyone that no canger was to be feared.

Word was flashed to Hillen Station and a wrecking crew dispatched to the scene. As things began to clarify it was found that Dr. J. T. Hering was on the train and he immediately began assisting the injured and making them as comfortable as possible until Baltimore was reached.

At Hillen Station Dr. D. Z. Dunott had made preparations to receive the injured and as soon as the train pulled in they were taken into a room on the second floor of the building and treated there.

John T. Jenkins, of Pottsville, a student at the local Seminary was on his way to Gettysburg, and was one of the passengers in the rear coach, which was struck by the freight. He told the following story:

"I was riding near the front of the back coach when the freight ran into us. We had just stopped at a station, I think it was McDonogh. A few minutes later I happened to look back and saw the headlight of the freight train bearing down upon us. In a moment I realized what was to happen and started to jump from my seat, but it was too late, for the next instant the heavy train crashed into the rear of our car. There were a number of women in the car, all of whom became greatly excited when the crash came. Passengers were hurled from their seats. In trying to jump from my seat my right leg was caught between the seat in which I was sitting and the one in front."

## SEND HOUSE BY PARCEL POST

**Gettysburg Brick Concerns Contribute to House which is to be Built Entirely of Bricks Sent by Parcel Post.**

Speese and Pfeffer and the Auburn Shale Brick Company each sent by parcel post this morning a brick of local manufacture to be used in building a brick house at the Colliseum Chicago, during the Clay Products Exposition which is to be held February 26th to March 8th. These bricks will be two of 25,000 sent in the construction of this house, which will be given away and re-erected after the exposition.

The idea was originated to test the merits of the parcel post system and it is certainly a novel one. A record will be kept of each brick from the time the brick is mailed until it is delivered in Chicago in order to see how speedily Uncle Sam can deliver a brick house by mail.

It is probable that Uncle Sam's carriers in Chicago will not be overly enthusiastic for this method of delivery of a brick house. Other mail carriers throughout the country will watch the experiment with interest and fear and trembling. While the brick fireproof home is becoming more and more popular because of its permanency, economy and superiority, it is not probable that they will be delivered by mail to any alarming extent.

At any rate Gettysburg will have two bricks in the first brick house ever sent by mail.

### MR. McCLEAN LEAVES

**Harrisburg Telegraph has Good Words for Former Gettysburger.**

The Harrisburg Telegraph on Saturday said:

After several years of service, characterized by fidelity, energy and efficiency as head of the circulation department of this newspaper, Robert B. McClean retires today to accept a similar position with the Pittsburgh Post. As a loyal member of the Telegraph family he has earned the good will and esteem of all his associates, and everyone is more than sorry to see him go.

Mr. McClean believes the Pittsburgh field offers a wider scope for his activities, and this is his reason for leaving Harrisburg. All his friends deeply regret his decision, but wish for him and his family all the good things of life in the western metropolis of the state. Everyone about the place today is saying:

"Good-by, Bob, take care of yourself!"

## FOUND GOODS IN COUNTY STORE

**New York Dealer Finds Goods, for which it is Claimed he had not been Paid, in Bendersville Store. Unusual Court Proceeding.**

An unusual Court proceeding was the issuing on Saturday of a writ of attachment under the Fraudulent Debtors' Act by Samuel Waldman, Inc., of New York City, against the Bendersville Bargain House.

The facts as they appear in the affidavit of the plaintiff are that one Herbert Levy, donig business in Baltimore as the Baltimore Mail Order House, bought a large amount of goods from Samuel Waldman Inc., of New York, which goods were delivered to the store in Baltimore and checks were given in payment of the same. The checks were returned protested and no funds; and when the plaintiff went to hunt for his goods they were not to be found.

Subsequent investigation revealed the fact that these goods had been moved to Bendersville where the same party and others represnting him opened a store under the name of the Bendersville Bargain House, Saturday. Mr. Waldman came on from New York and went with Deputy Sheriff and Special Deputy Amos Collins to Bendersville where he found the most of his goods, sold to the "Mail Order House" in Baltimore on the shelves of the Bendersville store, together with a large stock of other goods.

In addition to the removal of the goods from Baltimore and the giving of worthless checks the defendant had made a statement to a commercial agency, it is said, showing that he was worth $4700 when, according to the plaintiff's affidavit he was not worth anything.

A proceeding of this nature, being something unknown to the Prothonotary, it took the combined forces, together with the legal services of several members of the bar to get out the writ.

As a result of this proceeding the store was closed on Saturday but this morning the Sheriff, under instructions from his legal counsel, caused to be removed sufficient of the merchandise to cover the claim and costs amounting to $800, and the proprietors were then allowed to re-open the place for business.

## COWS KILLED IN MIDWINTER STORM

**Thunder and Lightning Visited the County on Saturday Evening. Three Cows Killed in York County Barn.**

A thunder storm touched some sections of Adams County late Saturday afternoon and the lightning was very plainly seen in Gettysburg. No damage was reported in this immediate vicinity but in York County three horses were killed in one stable.

E. M. Keeport and his son, Raymond, of near Lucky, were in their barn during the storm when lightning entered, killing three horses valued at $450, while the men and another horse escaped unscathed. Nothing was known of the loss of the horses until early Sunday morning when, on going to the stable to feed them, three were found dead—two with their heads in the trough and the third sprawled out on the ground. A horse in a box stall directly beside, was uninjured.

The horses killed were all fastened in their stalls with chains, which were touching some scrap iron on the manger. The only possible conclusion is that the lightning struck the barn and passed through the horses on going from the scrap iron to the ground.

Mr. Keeport and his son had fed and bedded the horses for the night and had just finished feeding a colt about 6.30 when the storm broke. They continued working and whilst they heard several heavy thunder peals—considered remarkable at this time of the year—did not think anything unusual had occurred, and finally returned to the house, believing everything was all right. Early Sunday morning, on going to the barn the dead horses were found in the stalls. There were no marks on the horses nor was there any mark on the woodwork or in the ground to show the course of the lighting.

Unfortunately for Mr. Keeport, he had his horses insured in several companies, but allowed his policies to expire without renewing them, so that the horses will be a total loss to him.

### WAS WELCOMED

**Gettysburg Minster Cordially Received by Waynesboro Friends.**

From the Waynesboro Record of Saturday:

"Rev. J. R. Hutchison, Gettysburg, former pastor of the First United Brethren church of this place, arrived here, at noon, today, to spend several days with friends here. He will occupy his old pulpit tomorrow evening and, Tuesday, will attend the meeting of the Quincy orphanage board at Quincy. Rev. Mr. Hutchison is in excellent health. He has recovered the use of his voice and is able to preach once a week. He, like every other Gettysburg resident, is busy with arrangements for the fiftieth anniversary celebration of the battle of Gettysburg, when an immense crowd of veterans and other visitors is expected. Mrs. Hutchison, who was injured by a fall, some time ago, is much improved. She is still lame but able to get around the house. Rev. Mr. Hutchison was one of the most popular pastors who ever served a Waynesboro congregation and he has received a warm greeting from all who have met him today."

### STORM COMING

**Weather Bureau Predicts Bad Weather for End of the Week.**

Temperatures below normal average for the season are indicated over practically all districts east of the Rocky Mountains and near normal on the Pacific Slope, according to the Weather Bureau's weekly bulletin. "The precipitation during the week," says the bulletin, "will be frequent in the Pacific States. The next disturbance of importance to cross the country is now off the North Pacific Coast; it will move inland during Monday, cross the Rocky Mountains Tuesday, the Middle West Tuesday night or Wednesday and the Eastern States about Thursday. This disturbance will be attended by snows.

### UNCLE TOM'S CABIN

**Expect Good Presentation of Old Slavery Days on Thursday.**

### MUST GET MAIL

**If too Far to be Hailed Carrier Leaves Note for You.**

If you are driving in the country in the near future and hear some one shouting at the top of his lungs to a little speck of a farmhouse on the lane far from the road, don't mistake the cry for a farmer calling his pigs or cows; it is only the rural mail carrier announcing he has a parcel post package too big to be dropped in the mail box.

This unique contingency is provided for in the February bulletin issued by the postoffice department. It states that many of the parcels cannot be handled by the present mail boxes on the rural free delivery and star routes and stipulates that if the farm house is out of hailing distance, too far for the mailman's halloo to carry, he shall drop a note in the box summoning the farmer to be at the box on the next trip and get the package himself.

### COLONIAL TEA

**Gettysburg Chapter D. A. R. Entertained Saturday Evening.**

Gettysburg Chapter Daughters of the American Revolution gave their annual colonial tea at Raymond's Restaurant on Saturday evening. The room was very prettily decorated, and the ladies of the chapter, together with those who served the supper, were in the garb of colonial times. The tea yielded about $60.

### A BUSY MAN

**Adams Countian Busy Mounting Heads of Slain Animals.**

A postal card received from Charles H. Eldon taxidermist, of Williamsport, who formerly lived in this county, states, "We now have to mount 267 moose, elk, caribou, and deer heads. The caribou came from Newfoundland and within 154 miles of the coast of Greenland." One of the recent shipments he received was the carcass of a wild cat. It was shipped to Mr. Eldon by parcel post.

# MADERO AND SAUREZ SLAIN ON WAY TO JAIL

## Under Guard in Street When Attacked.

## TWO OTHERS KILLED

## Were in an Automobile When Shooting Began.

## HUERTA DEPLORES TRAGEDY

## He Declares the Prisoners Tried to Escape.

Mexico City, Feb. 24.—Francisco I Madero and Pino Suarez, the deposed president and vice president, were shot to death while a guard of rurales was taking them from the national palace to the penitentiary.

General Huerta, the provisional president, and Francisco De La Barra, the premier, have disavowed the killing, and have informed the United States government that Madero and Suarez were killed by the bullets of their own friends in an attempt to rescue them. They say that the government profoundly deplores the occurrence and will track down and punish the murderers.

United States Ambassador Wilson told your correspondent that he thoroughly believed there was a real attempt at rescue by some armed followers of Madero. He did not believe for a moment, he said, that the affair was framed up by the new government, as some intimated. He said that Senor De La Barra talked with him two days ago about a plan to remove ex-President Madero and ex-Vice President Suarez to the penitentiary for better security and comfort. Mr. Wilson said he considered this as proof of good faith on the part of the present regime.

It seems that Madero and Suarez were advised of the project to transfer them to the penitentiary. They arose, dressed and entered an automobile in waiting in the courtyard of the palace. The auto had already been occupied by Major Carnedas and a force of armed rurales.

The automobile immediately left for the penitentiary, followed by another automobile full of rurales. The machines had gone about two-thirds of the way to the penitentiary and were in the Cofonia De La Bolso, Mexico's "Whitechapel" district, when, at the corner of Calle Le Cumberri, five armed men, crying "Viva Madero," fired upon the guards.

These men were followed by some thirty others from a side street, who also fired volleys at the two automobiles, riddling them. From what can be learned, the prisoners took advantage of this attack to attempt their escape, and they were riddled with bullets, whether or not by the rurales or accidentally by their would-be rescuers, is not known.

Two of the rescuers were killed and several others arrested.

After the news of the killing of Madero and Suarez became known, Provisional President Huerta immediately sent for the newspaper men, making full and frank statement of the facts and promised to give the fullest details obtainable later, as he considered it most important to justify the government in the matter and avoid any suspicion that might arise that it was a put-up job. The widow of Madero obtained possession of his body only after Ambassador Wilson had interceded for her. Nearly prostrated from the frightful news that had come to her, she pleaded pitifully for permission to see the body. The government refused. Mr. Wilson called upon De La Barra and persuaded him to grant Senora Madero's request. General Blanquet delivered the body to Alberto Perez, Senora Madero's brother.

Major Cardenas and two other officers who were in charge of the guard of rurales escorting the automobiles have been imprisoned pending an investigation by the attorney general.

The following official statement of President Huerta was given out at the palace:

"I called together the cabinet to report that Madero and Pino Suarez, who had been detained at the palace at the disposition of the war department, were taken to the penitentiary in accordance with a previous decision, as the result of which that establishment was placed under the charge of army officers for its better security.

"When the automobile had traversed about two-thirds of the way to the penitentiary, however, they were attacked by an armed group, and the escort descended from the machines to offer resistance. Suddenly the group grew larger and the prisoners tried to escape.

"An exchange of shots then took place, in which two of the attacking party were killed and two others were wounded. Both prisoners were killed. The automobiles were both badly damaged.

"The president and his cabinet have resolved that the affair shall be consigned to the military judicial authorities having to do with the attempts against military prisoners, such as were Madero and Suarez, so that they may make a strict investigation with the direct intervention of the military prosecutor general.

"The minister of justice has asked that when these investigations are over—the case being of so exceptional a character—that the prosecutor general of the republic make a further investigation.

"The government deplores the event and, wishing to attend to the necessities of the public welfare, has asked the minister of justice to formulate a plan of legal action against the prisoners for their several responsibilities at the same time making an effort to have some of the friends of Madero assist in the solution of this difficult and dangerous question.

"Filled with the desire to guarantee itself as well as the prisoners, the government had appointed Colonel Luis Vallestores as director of the penitentiary and has given to him strict instructions to provide for any contingency.

"The government promises that society shall be fully satisfied as to the facts in the case. The commanders of the escort are now under arrest, and the facts recorded above have been ascertained, so as to clear up this unhappy event, however, represensible it may be under the present sad circumstances."

## KILLINGS WON'T CHANGE U. S. POLICY

### Predict Mexico Will be Severely Condemned.

Washington, Feb. 24—Official Washington was most deeply shocked to learn of the killing of Francisco Madero and Pino Suarez, deposed president and vice president of Mexico, in the streets of Mexico City.

The word came from President Taft himself, however, that the slaying of Madero and Suarez, deplorable as the administration regards it, afforded no basis for any change in the policy of the United States with regard to the Mexican situation.

Though the United States government had expressed to the Huerta government in Mexico its earnest hope that Madero wouldn't be executed by any summary or illegal process and that his life might be spared, this expression of views was not made in the form of a demand for the preservation of Madero's life.

The belief that Madero and Suarez were killed as the result of a plot which those associated with the present government were cognizant was so general that it is certain the Huerta government will have to make a most convincing statement of the affair if the current opinion is to be reversed.

That the Mexican government will be severely censured by public opinion in the United States for permitting Madero to be killed while a prisoner, even though itself not in a plot for his death, was predicted.

Just as the execution of Gustavo Madero alienated from the new government in Mexico much of the sympathy which it had enjoyed in Washington, so the killing of Madero and Suarez is declared will lower Mexico even further in the opinion of the United States. It is recognized that it is no real concern of the United States what Mexico does with her public men, and that the killing of Madero does not justify the adoption of any strong measures by the United States, yet on the other hand it is believed his death will do much to prepare public opinion for intervention in Mexican affairs at some future time.

At the war and navy departments it was declared that the situation remains unchanged as far as preparations for operations against Mexico are concerned.

## BROTHER IS PROSTRATED

### Evariate Madero Grief-Stricken at the News From Mexico.

Ithaca, N. Y., Feb. 24.—When Evariate E. Madero, brother of Gustavo and Francisco Madero, was informed of the killing of his brother Francisco, former president of Mexico, in Mexico City, he was so overcome with shock and grief that all he could ejaculate was "executed" in a high shrill voice. He then retired to his room to be alone with his grief.

He said before retiring to his room that he had no plans, that he did not know what he should do. Since he learned of the recent execution of his brother Gustavo, the young man has been in a highly nervous condition, and his anxiety to hear from home has increased with the uncertainty as to the probable fate of his brother Francisco.

**FIVE THOUSAND DRUGGISTS**

Unite In Opinion Regarding One Medicine.

If any one should know the value of a medicine it is the retail druggist who sells it.

Therefore, when over five thousand of the best retail druggists in the country recommend Vinol, our delicious cod liver and iron tonic, without oil, as the greatest tonic reconstructor and strength creator they ever sold, it must indicate the value of Vinol.

We could publish columns of such testimony as the following:

Mr. E. C. Spens, Druggist of Alpena, Mich., says: "Vinol is the ideal tonic reconstructor, as it really today is the best remedy we have on our shelves."

Mr. C. F. Bucholtz, the leading druggist of Springfield, Ohio, says: "Vinol gives better satisfaction than any medicine I have sold in my store."

We ask every run-down, nervous, debilitated, aged or weak person or any person suffering from chronic coughs, colds or bronchitis, to try a bottle of Vinol with the understanding that their money will be returned if it does not do all we claim. People's Drug Store, Gettysburg, Penna

# EDUCATORS MEET IN PHILADELPHIA

## Convention of Superintendents Began Today.

## WORK FOR NATIONAL SYSTEM

**Many Important Questions Are to Be Discussed — To Organize International Council of Education.**

Philadelphia, Feb. 24.—Hundreds of educators from all parts of the country have arrived in Philadelphia for the week of educational conventions that began today. More than 3000 delegates and as many visitors will take part in the meeting.

The congress opened today with a meeting of the National Council of Education in the Bellevue-Stratford hotel.

Many important educational questions will be discussed, and it is believed that great strides will be made towards nationalizing the school system. Vocational training and specialized curricula will come in for special discussion. A significant move will be the organization of an international council of education, embracing every nation of the globe, to act as a clearing house for eucational ideas. America will take the initiative in the matter and proposes to hold an international educational congress in 1914.

Another propaganda to be gotten under way is the proposed establishment of a federal department of education, the head of which is to be included in the president's cabinet.

The main feature of the week's gathering will be the annual convention of the department of superintendence of the National Education association, which opens Wednesday and remains in session three days. Fourteen allied educational organizations will convene with the superintendence during the week.

Most of the meetings will be held in the Bellevue-Stratford. A few will be held in the assembly rooms of the William Penn and Central High school and the great mass meeting on Thursday night, under the auspices of the teachers' association, will be held in the Metropolitan Opera house.

The following institutions and societies will also hold meetings during the week: National Council of Education, National Council of Teachers of English and the School Gardens Association.

Among the prominent speakers are the following noted educators: Henry Suzallo, professor of educational philosophy at Columbia university; Dr A. Duncan Yocum, of the University of Pennsylvania; William M. Davidson, superintendent of schools, Washington; James H. Van Sickle, superintendent of schools, Springfield, Mass.; C. T. Corson, former president of the National Educational Association; Nathan C. S. Schaeffer, state superintendent of instruction of Pennsylvania; Philander P. Claxton and C. H Judd, of the University of Chicago and Miss M. Catherine Straith, president of the Pennsylvania School of Horticulture for Women.

## SECOND G. W. TIES UP TOWN

**Fells Tree With Little Hatchet and Breaks All Electric Wires.**

New Britain, Conn., Feb. 24.— "I can't tell you a lie, papa, I did it and with this little Boy Scout hatchet."

This was the explanation of Timothy Butler, aged eleven, of Plantville near here, when he was asked by his father to explain the felling of a tree that put every electric light, telephone and trolley car in town out of commission.

The lad was emulating George Washington, and when he felled a maple tree service wires were carried to the ground with it.

## USE FIRE TO ROB BLIND MAN

**Negress Covets Fine Dresses and Uses Terrible Means.**

Harrisburg, Pa., Feb. 24.—Ena Robertson, colored, aged nineteen, coveted fine dresses. She also needed money. She lived with William Bond, a blind man, and his wife.

On Feb. 14, while Mrs. Bond was absent and the blind man was sleeping, Ella set the house on fire after stealing a box containing $120. The blind man was barely saved from cremation.

Ella began to buy fine clothes, paying $30 for a party dress. That gave the detectives a clew. She was arrested and confessed.

**Saves Baby From Rat Poison.**

Bethlehem, Pa., Feb. 24. — Hardly had Tilghman Ilarie, of Lehigh Church, entered the house with a bag of rat poison and turned his back for a moment, when his two-year-old son got hold of the bag and ate some of it, but heroic measures saved the lad's life.

**Colored Men Lynch Negro.**

Drew, Miss., Feb. 24.—Willis Webb, colored, was lynched by members of his own race on a plantation in a remote section of Sunflower county after he had shot and killed two colored women and two men.

**Morgan In the Open.**

Cairo, Egypt, Feb. 24.—J. Pierpont Morgan is enjoying himself thoroughly. He is in the open air all day. Sunday afternoon he attended a battle of flowers at Gezira.

# G. O. P. PLANS REJUVENATION

## Leaders Likely to Call a National Convention.

## NO REORGANIZATION SCHEME

**Will Change Basis and Manner of Electing Delegates, But Committee Will Not Resign.**

Washington, Feb. 24.—The "get together" cry that has started and has been pursued by some of the leaders of the "progressive" faction of the Republican party has had its effect, and it is practically settled that a national convention of the Republican party will be called to meet probably next fall.

But this convention will not take up the proposition to "reorganize" the party which is the demand of the progressives. No doubt a determined effort will be made by men who wandered off the reservation in the last campaign to inject a reorganization scheme into the deliberations of the convention, but if the national committee decides otherwise, which it undoubtedly will do, the reorganization or rejuvenation of the party will be left to a natural process.

At this convention the subjects to be taken up will be a change of the basis of representation and, perhaps a proposition to permit the Republicans of each state to elect delegates to national conventions in their own way, so that the choice in each state will be regulated according to the laws of the state.

These are the important matters that will come before the convention. They furnish an excuse, if that be needed, for a convention that may wind up in a harmony meeting that will solidify the great majority of Progressives and Republicans.

Senator Dixon, of Montana, national chairman of the Progressive party; Senators Bristow, of Kanas; Clapp, of Minnesota, and Poindexter, of Washington, will not, they say, enter into any agreement that does not comprehend the complete capitulation of the Republican organization. These men will consider no other suggestion. They want to absorb the old party and enlist its members under the standard of the new Progressive party, with Colonel Roosevelt at its head.

It was Senator Cummins who first proposed a national convention, and his proposition was scoffed at by many men in the regular organization, who declared that no reorganization was necessary. They hold the same view today, but they believe that if a convention were called for the purpose outlined by Senator Root—namely a change in the basis of representation and a change in the method of selecting delegates that will give each state the privilege of selecting delegates in its own way—it would afford an opportunity for leaders of both factions to get together and "make up."

In short, they are willing to meet the Progressives half way. They will consent to a convention, but not to a reorganization. Reorganization, these men contend, must come by a natural process from within the party. It must start among the smaller units—the township, county and state organizations—and in a natural and gradual movement it will reach the national organization.

## MEXICO TO BORROW MILLIONS

**United States Financiers to Make Loan of $30,000,000 Gold.**

Mexico City, Feb. 24.—The American embassy is informed that President Huerta has arranged with capitalists in the United States to secure a loan of 60,000,000 pesos ($30,000,000 gold). The terms of the loan are said to be favorable.

Madero had attempted to borrow the sum mentioned, but was unable to do so, because American financiers were told that his government was unstable and corrupt and that it was characterized by colossal grafting.

Officials of the new government say that Huerta found the national treasury almost empty when he took office and that he had to borrow money from private individuals in order to pay his troops.

**$1,200,000 Cotton Burned.**

Columbus, Ga., Feb. 24.—Fire destroyed the Atlantic Compress, of the Central Georgia railroad, with 1106 bales of cotton owned by the B B Hersh company and other firms. The loss is about $1,200,000, covered by insurance. The origin of the fire is supposed to be of incendiary origin. The officers are looking for discharged negroes.

**In a Shower of Fiery Shale.**

Lewistown, Pa., Feb. 24. — James Frey, twenty-six years old, of Frederick City, Md., is dying at the local hospital from burns sustained in the plant of the Logan Iron and Steel company when a number of furnaces exploded, throwing burning shale over his body. His back was turned to the explosion, which saved him from instant death.

**Hailstorm In Reading.**

Reading, Pa., Feb. 24. — A severe hailstorm struck Reading. Streets were covered with an inch of hailstones. In some places there were heaps of ice pellets half a foot high. Many electric signs and windows were broken.

## SAYS HE HEARD PLOT TO KILL SULZER

### Was Discovered and Beaten Unconscious.

Albany, N. Y., Feb. 24.—Governor William L. Sulzer admitted that he had been told last Friday of a plot to assassinate him. He also said that in the past three weeks he had received numerous threatening letters.

The governor said that last Friday he was told a man in the outer room with his head bandaged, wanted to see him, as he had important information for the governor. The governor sent out word that he was too busy and that this information should be given to Mr. Potter, the governor's legal assistant.

Mr. Potter says that the stranger whose name is being withheld, told him he was employed on some high way work at a village a few miles from Albany, and that after working near one place all day he left an oil can there when he quit for the night. After dark he went back for the can which he found near what he says was an abandoned mill, and heard voices. He investigated and overheard details of the plot to kill the governor. The plotters discovered him eavesdropping, the man asserted, and beat him into unconsciousness with blackjacks and robbed him.

Mr. Potter advised the man to give his information to the police and gave him a letter of introduction to Deputy Commissioner of Public Safety Rice. The man left the capitol, but returned some time later and said he was not able to locate police headquarters or find Mr. Rice. He returned his letter of introduction and said he must hurry back home.

## NOSE TURNS TO CONCRETE

### Doctors Drilling Nostrils For Stopped Up Cement Worker.

St. Louis, Mo., Feb. 24.—John Tholt thirty-nine years old, employed at the Portland Cement company's works at Prospect Hill, is being treated at the City hospital for a "cemented" nose.

The hospital physicians say that his case has no parallel. Both nostrils are stopped up with cement, making his breathing through the nostrils impossible.

The hospital physicians have begun chipping the cement to remove the obstruction. Tholt says he fed a hopper at the mill and inhaled the fine cement dust.

It was found that the dust had been moistened and hardened on the membrane as though grown there.

### Gets Divorce at 88.

Lancaster, Pa., Feb. 24. — August Rost, eighty-eight years old, was granted a divorce from his wife, Wilhelmina, here, on the ground of desertion. Rost testified that he was the father of ten children by his first wife, and some time after she died he married again. He was then sixty-five years old and his second wife was forty-two. He lost a le gin the Civil War and received a pension of $24 a month.

## TANK STEAMSHIP DRIVEN ASHORE

### Blunders on Bar in Fog Near Sea Isle City.

Sea Isle City, N. J., Feb. 24.—The fate of the Dutch tank steamship American, which is wallowing off shore here in the clutches of the sand bars, depends upon the elements.

Every crash of the heavy rollers, which are sweeping in from the sea under the impetus of a stiff northeaster, is driving the ship deeper into the sands and straining and clutching at the plates and rivets of the big vessel. The boat and its cargo seems doomed.

Since the boat, lost in the thick fog, blundered aground about a mile east of the Ludlam's Beach life saving station, Saturday afternoon, anxiety has been at a high pitch and thousands throng the shore awaiting news of the condition of the vessel.

The life savers risked their lives freely as soon as the big fog horn of the ship put up its wail for assistance and are now lying by the vessel, all ready, if worse comes to worse, to take off the crew of thirty-two.

A huge wrecking tug and a powerboat, which has been impressed into service, has been attached by cable to the stern of the vessel, and the beat of their engines has been constant as they strained and tugged to prevent the ship from being driven in farther.

The American was on the last lap of her voyage when she went aground. She was bound for Philadelphia to take on cargo. The ship runs regularly between Holland and Philadelphia in the oil trade, being at present chartered by the Standard Oil company.

## SERIOUS ERROR IN GETTYSBURG

**Gettysburg Citizens Will do Well to Profit by the Following.**

Many fatal cases of kidney disease have reached an incurable stage because the patient did not understand the symptoms. Even today in Gettysburg there are many residents making the same serious error. They attribute their mysterious aches and pains to overwork, or worry, perhaps, when all the time their rheumatic pains, backache and bladder irregularities are most probably due to weak and ailing kidneys. If you are ill, if your kidneys are out of order, profit by this Gettysburg resident's experience.

F. G. McCammon, Gettysburg, Pa., says: "I first used Doan's Kidney Pills some years ago and I still take them occasionally, although I seldom need a kidney medicine. I suffered for quite a while from weak kidneys and a painful back. I tried several remedies and doctored, but with little success until I used Doan's Kidney Pills. This preparation rid my system of the pains and aches."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agent for the United States.

Remember the name—Doan's—and take no other.

## DON'T NURSE CORNS TRY THIS REMEDY
